**University of California, Merced**  
**SYLLABUS: NSED 23/24 and NSED 33/34**  
Introduction to Teaching Science in Elementary School  
Introduction to Teaching Math in Elementary School  
Seminar and Fieldwork  
Tuesdays 5:30 - 7:20  
Room COB 114

**Fall 2015**

**Instructor:** Sue Campbell

**Email:** [scampbell8@ucmerced.edu](mailto:scampbell8@ucmerced.edu)  
**Office:** S&E1 - 270G  
**Office Hours:** One hour before class and 30 minutes after class. Additional hours are by appointment.

Since I am regularly on campus only one evening a week I am providing an additional method of contact. Appointments can be made to meet me at other times. My goal is for you to be successful in this class. I do check my UC Merced email 2-3 times a day during the workweek. If you try to email me at school (LMS) using a Yahoo, Hotmail or gmail account, it may be blocked and I will not see your message until the next day when I receive my spam report.

**Alternate Contacts:**  
[scampbell@livingstonusd.org](mailto:scampbell@livingstonusd.org) (Livingston Middle School)  
[scampbellte@gmail.com](mailto:scampbellte@gmail.com)  
1-209-683-0363 (Google Voice Number for calls and text)

**Text**  
*Check your course number. There are two different books.

**NSED 23/24**

*Teaching Science As Inquiry and Investigation*– Bass, Contant, Carin (Pearson), 12th Edition  
On-line resources found on CROPS or as links on reading assignment document

**NSED 33/34**

*Elementary and Middle School Mathematics: Teaching Developmentally* – Van De Walle, Karp, and Bay-Williams (Pearson), 9th Edition  

*How to Ask the Right Questions* – Blosser (available as a free PDF download)  
On-line resources found on CROPS or as links on reading assignment document
Course Description:

The primary objectives of this course are to:

- Provide an introduction to careers in teaching Science and Mathematics at the K-12 level
- Improve your skills to better understand and communicate concepts to students

During the course you will learn about effective teaching methods and learning strategies. Teaching Science and Mathematics through an inquiry-based approach will be discussed and you will have the opportunity to plan and implement effective lessons. This course is offered as part of the California Teach (CalTeach) Program. The CalTeach Program, also known as the Science and Math Initiative (SMI) is a UC-wide effort focused on encouraging UC students interested in Science, Math or Engineering to consider teaching in K-12 schools as a career and creating courses and support systems that would help them become great teachers.

Learning Outcomes

Successful completion of the course will ensure that

1. Students will be able to prepare and deliver an inquiry-based lesson
   a. Students will demonstrate their understanding of basic lesson planning by developing a lesson plan.
   b. Students will deliver their prepared lesson in a classroom.
   c. Students will identify different assessment methodologies used by the teacher they are observing in a classroom.
   d. Students will select and use an appropriate assessment method for their lesson.
   e. Students will demonstrate understanding of questioning strategies and levels by creating questions to use in their lesson.

2. Students will develop their own classroom presence
   a. Students will be able to identify different teaching styles, techniques and management strategies while observing in a classroom.
   b. Students will identify the elements of effective class presentations through the development of a rubric.
   c. Students will demonstrate the ability to self assess their presentations by using a rubric and completing an evaluative reflective essay.
   d. Students will be able to tutor individual students and to work with groups of students

3. Students will be able to articulate the main aspects comprising a teaching career
   a. Students will be able to explain the requirements for obtaining a teaching credential in the State of California.
   b. Students will be able to articulate what constitutes the responsibilities, obligations and rights of a teacher
Fieldwork (NSED 24/34)

You are required to complete 30 hours (approximately 3 hours per week) of fieldwork in local schools under the guidance of a mentor teacher. This practicum experience will allow course participants to observe classrooms as well as put the material they learn in the seminar to practical use. The fieldwork will also serve as a supplemental source of topics for lectures and discussions.

Grading – Seminar NSED 23/33:

Class attendance and group participation in class – 55%
Assignments – 15%
Tests – 10%
Final Project – 20%

Attendance

Attendance in this course is essential due to the nature of the coursework. You are expected to be in class, on time each week. 55% of your grade is based on points earned through attendance and participation. If you need to miss class for any reason, please contact the instructor as soon as possible. You will only be allowed to make up one missed class session through an alternate assignment.

Grading – Fieldwork NSED 24/34:

The fieldwork grade will be based on the following:

Fieldwork hours (based on 30 hours) – 45%
Fieldwork Reports – 50%**
Mentor Teacher Evaluation – 5%

**Assignments for fieldwork reports will vary based on previous fieldwork experience level.
Tier 1 – first fieldwork course/experience
Tier 2 – second fieldwork course/experience
Tier 3 – third fieldwork course/experience

Course Grade will be assigned as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>100%</td>
</tr>
<tr>
<td>A</td>
<td>91 – 99%</td>
</tr>
<tr>
<td>A-</td>
<td>90%</td>
</tr>
<tr>
<td>B+</td>
<td>89%</td>
</tr>
<tr>
<td>B</td>
<td>81 – 88%</td>
</tr>
<tr>
<td>B-</td>
<td>80%</td>
</tr>
<tr>
<td>C+</td>
<td>79%</td>
</tr>
<tr>
<td>C</td>
<td>71 – 78%</td>
</tr>
<tr>
<td>C-</td>
<td>70%</td>
</tr>
<tr>
<td>D+</td>
<td>69%</td>
</tr>
<tr>
<td>D</td>
<td>61 – 68%</td>
</tr>
<tr>
<td>D-</td>
<td>60%</td>
</tr>
<tr>
<td>F</td>
<td>59% or below</td>
</tr>
</tbody>
</table>

Late work: Barring special circumstances, all work must be turned in at the beginning of class. Fieldwork reports are due as scheduled. Late assignments will be penalized with a one letter grade reduction from earned score.
Pass/No Pass Option

Students have until the end of the second week of each semester to change the grade option on a course via MyRegistration, accessible through MyUCMerced. After the second week of each semester and up until the last day of instruction for that semester, a student may only change the grade option on a course with the approval of their School dean using the Course Addition/Change form available on the Office of Registrar’s web site: registrar.ucmerced.edu. Students in good standing who are changing a grade option from a letter grade to a P/NP must conform to the rules guiding the taking of courses on a P/NP basis (see section on Pass/Not Passed).

The grade of P is assigned for a letter grade of C- or better. If the student earned a grade of D+ of below, the grade will recorded as NP. In both cases, the student’s grade will not be computed into the grade point average. Credit for courses taken on a P/NP basis is limited to one-third of the total units taken and passed on the UC Merced campus at the time the degree is awarded.

Academic Integrity

Please refer to the University Policy on academic integrity. It is expected that all work for this course is your own work and that you credit any sources that you may have used. It is also expected that any work turned in for this course has been specifically created for this course. You may not use materials turned in for another course as an assignment for this course.

Accommodations for Students with Disabilities:

The University of California Merced is committed to ensuring equal academic opportunities and inclusion for students with disabilities based on the principles of independent living, accessible universal design and diversity. Any student who feels he or she may need an accommodation based on the impact of a disability should contact me privately to discuss his or her specific needs. Also contact Disability Services at (209) 228-7884 as soon as possible to become registered and thereby ensure that such accommodations are implemented in a timely fashion.
