

CALTEACH

System-Wide Tech Webinars

Creating Interactive Slide Decks for Synchronous or Asynchronous Sessions

OPEN TO ALL K-12 TEACHERS, UC
STAFF/FACULTY, CALTEACH STUDENTS
AND PRESERVICE TEACHERS

Presented by: Ingrid Salim

Ingrid Salim is primarily a science teacher with degrees in chemistry and German, from UC Davis and a Master's in STEM Curriculum Design from the University of San Diego. She has taught grades 4-12 in Davis for over 30 years, currently coordinates their science program and is a teacher leader with the Sacramento Area Science Project. She loves hiking and reading science fiction.

January 21st: 6:00pm- 7:00 pm

Learn ways to design slide decks that students interact with synchronously during a seminar or lecture session, or asynchronously.

Using simple google slides, Peardeck or Nearpod. The workshop will be presented using these apps.
