

**CALTEACH**

System-Wide Tech Webinars

# Exploring

# Canvas

Have specific questions for  
the presenter?  
Submit them [here!](#)

OPEN TO ALL K-12 TEACHERS, UC  
STAFF/FACULTY, CALTEACH STUDENTS  
AND PRESERVICE TEACHERS

**September 30th: 4pm- 4:45pm**

Come check out and see some of the basic features in Canvas and how it compares to Google Classroom. Learn how to schedule announcements and organize your course content easily for both teachers and students. See the different assignment types and get your Canvas questions answered.

**Presented by: Stacey Cool**

Stacey Cool has been a high school educator since 2005, teaching in a variety of settings in California, Seattle and Hong Kong. She has primarily taught chemistry and AP chemistry, but has also taught biology, AP environmental science, and CAHSEE math at the secondary level. Additionally, Ms. Cool spent 6 years as an adjunct professor of chemistry for Merced College before joining the UC Merced faculty in the Natural Science Education Department. In addition to teaching at UC Merced, Ms. Cool works full time for Merced Union High School District at the district office working on curriculum support, new course development, and technology integration.
