

CALTEACH

System-Wide Tech Webinars

Understanding the Power & Capabilities of a Zoom Virtual Classroom

*Open to all K-12 teachers, UC staff/faculty,
CalTeach students and preservice teachers*

October 8th: 6:15pm- 7:30pm

Come experience the world of Zoom from both the student and teacher perspectives. Learn about settings that will give you maximum flexibility and control over your virtual classroom experience and learn about tools that can be used with Zoom. We'll cover things like breakout rooms, Zoom settings and controls, screen sharing, and more.

Presented by: Corey Lee

Corey Lee will begin his 9th year of teaching this year. He teaches AP Chemistry and Biotechnology at Vacaville High School. In addition to being a teacher, he is also the varsity girls tennis and varsity girls badminton coach, Activities Director, Technology Coordinator. Previously he was the WASC Coordinator. He graduated from UC Davis in 2011 with a degree in Biotechnology. He also completed the UC Davis teaching credential/MA program having previously been a part of the MAST/CalTeach program at UC Davis. He completed his student-teaching at Vacaville High, and then went on to be hired full-time and has been here ever since.
