

Divide and Conquer

A two-day study group to help you tackle the CBEST and prepare for the mathematics review portion of this state required test.

Tuesday, February 07 in S&E 1 300
and
Wednesday, February 08 in S&E 1 298
1 P.M. – 2 P.M.

In this two-day workshop, we will be reviewing the format of the CBEST mathematics test, including an overview of the section and key test taking strategies. Attendees will be given a diagnostic test and a practice exam to take home.

The UC Merced CalTeach program is designed to address the shortage of science and mathematics teachers in California's elementary, middle and secondary schools, particularly in the Central Valley region. This innovative program recruits and prepares mathematics and science majors for teaching careers by providing special coursework and field experiences in K-12 schools in the Central Valley, as well as direct pathways to a teaching credential in California.

Snacks and light refreshments will be served.
