UCME251_W1](https://commerce.cashnet.com/UCME251_W1)

SUMMARY OF WORKSHOP

The workshop will have a focus on brain development. Student will be diving deep into the different brain parts, attention sleep, memory, damage to brain and how that all connects with neuropsychology.

MEET THE INSTRUCTOR

My name is Desiree Solis, and I'm an incoming second-year student studying Cognitive Science at UC Merced. I love to travel, eat different kinds of food, and learn about the brain.
